Dear Mr. Kathan:

This letter will confirm our phone conversation of August 22, 1983 during which we discussed an inspection of Modine Manufacturing Company's facility in Bloomington, Illinois. The purpose of the inspection is to gather background information and determine potential hazards, if any, to the environment via groundwater, surface water, and/or air. This information is necessary to complete a Preliminary Assessment (EPA Form 2070-12) and Site Inspection Report (EPA Form 2070-13). This inspection will also aid in determining the feasibility of additional sampling/monitoring. At this time it is not anticipated that sampling will be necessary.

Our office will be in touch to finalize a jointly agreeable inspection date. If you have any additional questions feel free to contact me at the above number.

Sincerely,

A handwritten signature in dark ink, appearing to read 'Michael A. Gifford'. The signature is fluid and cursive, with the first name 'Michael' being the most prominent.
